lnk ; Revision: 2.8 ; Build: 255 ; ExplicitVersion: 11.1.2 ; Hello folks, Following the PSD-File of Adobe (DELMA KID.PSD), I created a new PSD with the same components as part of the original Adobe project. All filters, fonts, effects etc. from the Adobe software are exact like they are in the original Adobe project. Tested on different Windows 10 Versions and it works! Please watch the video, while the screenshot is placed into the video. Download: [HERE](#) FAQ: Q: I didn't find the video how it worked. A: Please watch the video.
