this game is great!!! it may take some time to get it working tho. A certain upgrade from the first Army Men! Over all this captures the original style of play with a bit more refined controls. GamePlay is okay in the sense of objective and combat, a strange mix between RTS and top-down 3rd person shooter. Soundtrack is really bad, like bottom of the free music barrel bad, disabling music will resolve this. Graphics are solid for the age considering it is almost 20 years old. Overall this is an alright game if you are looking for old-school games but outside of that it's certainly nothing you would look twice at. Get this game on sale.. Finish the game about 2 hours. God, so many memories, it has been almost 20 years. I was a little 9 years old boy on 1999. My father's friend brought me a disk of army men 2. I was falling in love with it. The only bad thing is some controls are not very good. If you grow up as have a girl friend or wife with kids, you should buy this game as a memory.. army men 2 it's one of those game are take you back to your childhood well done you probably have one great imagination or one messed up imagination army men 2 is an isometric shooter with some light RPG/RTS elements you play as sergeant Hawk your mission rid

of the evil tan army use a variety of weapons for example grenades bazookas and the ever-present flamethrower fortunately though the graphics are out of date and your AI Partners and not the smartest some of the levels can be so difficult pull your hair out but underneath all the crap and grime there is a gem waiting to be play so grab your rifle and your helmet I get ready for one hell of a war in conclusion I would highly recommend this game. The fact they took away the mulitplayer options makes mei even got the game
